

Remote Work Policy

1. Eligibility

All full-time engineering employees are eligible for remote work after completing their 90-day onboarding period. Managers may approve exceptions on a case-by-case basis for new hires with prior remote experience.

2. Equipment and Expenses

The company provides a laptop, monitor, and a one-time home office stipend of \$500. Internet reimbursement is capped at \$50 per month and must be submitted through the standard expense system with a receipt attached.

3. Core Hours

Remote engineers are expected to be reachable between 10am and 4pm in their local timezone to support cross-team collaboration and incident response rotations.
